Enter the world of factory painted doors. Pick a color – any color,\* and experience the many benefits that factory painted doors have to offer.

#### CONSISTENCY

- Uniformity in color, texture and coating consistency
- Superior to field finishing and is not susceptible to paint imperfections due to job site pollutants
- Spray systems are designed for optimal flash-drying and cooling cycles that provide greater durability than field painted doors

#### EFFICIENCY

- Factory finishing expedites project completion
- Lower finishing costs due to the omission of jobsite preparation, painting, and clean up

#### RELIABILITY

- Factory controlled environment ensures less contact with pollutants, dust, or dirt
- Factory color matching to work with, and enhance your design
